

## Powering care as you intended.

IMO is dedicated to powering care as you intended, through a platform that is intelligent, intuitive, and intentional. Used by more than 4,500 hospitals and 500,000 physicians daily, IMO's clinical interface terminology (CIT) forms the foundation for healthcare enterprise needs including effective management of EHR problem lists, accurate documentation, and the mapping of over 2.4 million terms and 24 coding systems across the globe.

IMO offers a portfolio of products that include terminologies and value sets that are clinically-vetted, always current, and maintenance-free. This aligns to provider organizations' missions, EHR platforms' inherent power, and the evolving vision of the healthcare industry while ensuring accurate care documentation and administrative codes. So clinicians can get back to being clinicians, health systems can get reimbursed, and patients can more easily engage in their own care. As intended.

### IMO SOLUTIONS SUITE

#### IMO Core

A clinical interface terminology (CIT) solution to better manage diagnoses and patient problem lists

#### IMO Core Periop

A CIT solution that maintains the procedures in your surgical dictionary to optimize your operating room

#### IMO Core Procedure

A CIT solution that maps procedure terms to appropriate billing and reference codes

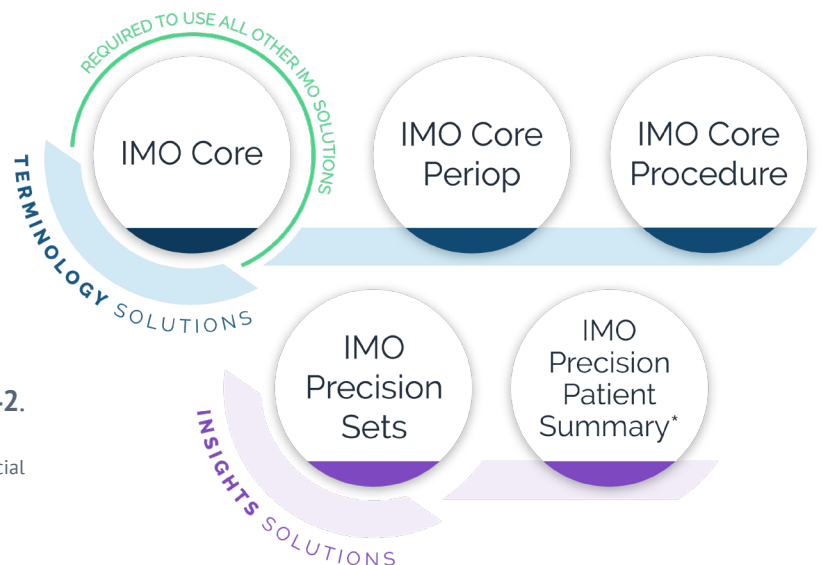

#### IMO Precision Sets

Up-to-date value sets for better quality reporting and understanding of patient cohorts

Our industry-leading CIT solutions form the foundation of the IMO platform.

**IMO Core** solutions provide clinically-validated, continuously updated, curated content and intuitive workflow applications. **IMO Precision** solutions leverage the power of our Core offerings to deliver content, software, and services that provide more precise analysis and reporting of data – from patient to population.
